

Recording Lessons

Always wanted to record yourself, your band or others? Are you curious about what makes for a good recording? Confused by the alphabet soup: db, kHz, MIDI, .wav, etc.? Music Go Round can help!

We are now offering **Audio Recording** lessons. Taught by Joe Idzal, a recording and live sound engineer with over 20 years experience, classes are held in our acoustically treated space using recording industry standard Pro Tools® software. Classes can be tailored to meet student objectives, learning preferences and skill level.

Email us (info@musicgoroundboston.com) to reserve your spot for audio recording classes at Music Go Round. All levels of recording experience are welcome. No prior recording experience required!!

Reuse. Recycle. Rock.
